

英语科技文献阅读 (1.9 上午)

选择 20 (mooc)

四篇阅读理解 40

英译汉 5 句 (课上)

段落翻译 10

作文 15

一. 选择题

1. Which of the following is not categorized as scientific literature?

- A. Academic journals
- B. Product specifications
- C. Movie comments
- D. Monographs

2. Which of the following is defined as tertiary literature?

- A. Encyclopedia
- B. Research articles
- C. Graduation papers
- D. Science news

3. Which type of the following international conferences is listed as Number one conference in the world?

- A. Conference A +
- B. Top conference
- C. Conference C
- D. Conference A

4. The followings are published in academic journals except for:

- A. Book reviews
- B. Research articles
- C. Review articles
- D. Science fictions

5. There are similarities between a journal research article and a graduation paper. They are similar in the following aspects except for:

- A. They can be both written by one researcher.
- B. They can be both focusing on some unknown problems.
- C. They can be written both by university students.
- D. They can be both primary research.

6. Which is not the feature of product specification?

- A. Being costly
- B. Being popular
- C. Being scientific

D. Being genuine

7. Which type of document below does not belong to the classification of product specification?

A. Publishing product specification

B. Agricultural product specification

C. Financial product specification.

D. Industrial product specification

8. The classification of standard documents can be drawn according to the range of their application, thus they are classified in terms of the followings except for:

A. Regional standards

B. Technical standards

C. International standards

D. National standards

9. Which of the following criteria is not the criterion used to classify technical reports?

A. In terms of scope of circulation

B. In terms of contents

C. In terms of amount of money

D. In terms of progress of research

10. Which of the following is not one of the four well-known American technical reports?

A. AD reports

B. DOE reports

C. NASA reports

D. INTERIM reports

11. How many years would a patent be protected?

A. 10

B. 20

C. 30

D. 40

12. Which of the following scientists should be listed as the top one?

A. Scientist whose h-index is 39

B. Scientist whose h-index is 90

C. Scientist whose h-index is 780

D. Scientist whose h-index is 60

13. The intentions of academic journals are the followings except for:

A. To disseminate academic information

B. To lead the research directions

C. To help researchers get promoted

D. To cultivate talents

14. Journal metrics can be used in academic circles to _____.

- A. measure the prestige associated with the journal
- B. reflect the place of a journal within its field
- C. all of the other three
- D. evaluate an academic journal's impact and quality

15. Which metric is used to measure the productivity and impact of an author?

- A. CiteScore
- B. H-factor
- C. Cited Half-life
- D. Eigenfactor

16. How many digits does ISBN have after 1st January 2007?

- A. 10
- B. 12
- C. 13
- D. 11

17. Which of the following citation indexes was not originally published by the Institute for Scientific Information (ISI)?

- A. A & HCI
- B. SCI
- C. EI
- D. SSCI

18. Generally speaking, which two types can abbreviations be classified into?

- A. Syllabic abbreviations and alphabetic abbreviations
- B. Single-letter abbreviations and multiple-letter abbreviations
- C. Contractions and short forms
- D. Initials and acronyms

19. Which of the following abbreviations is not correct?

- A. C-chapter
- B. D-dissertation
- C. M-monograph
- D. J-journal

20. Which of the following is not the suitable tool for you to search for the top journals, top conferences and top authors?

- A. CNKI
- B. GPO
- C. Microsoft academic search
- D. Web of Science

21. The influence of an author's journal articles can be evaluated by the following factors except for _____.

- A. JCR
- B. H-index
- C. Citation index
- D. G-index

22. Journal metrics can be used in academic circles to _____.

- A. evaluate an academic journal's impact and quality
- B. measure the prestige associated with the journal
- C. all of the other three
- D. reflect the place of a journal within its field

23. What do you use the software of Note-express for?

- A. for calculating
- B. for listening to lectures
- C. for reading novels
- D. for literature searching and management

24. Which function of the below is not listed as one of the functions of Endnote?

- A. supporting downloading overseas literature
- B. taking a note in the form of a photo
- C. linking to many databases
- D. inserting references in word editor

25. Zotero is similar to EndNote in some aspects, but different in that

- A. it is used for collecting scientific documents
- B. it is inserted in internet surfer
- C. it is used for exporting references
- D. it is used for managing scientific documents

26. The following words are regarded as derivation formation except for:

- A. breakthrough
- B. hydrocarbon
- C. transmitter
- D. biomedical

27. Which nominalization of the below is not listed as transforming a verb into a noun?

- A. proposal
- B. investment
- C. stability
- D. evolution

28. Which of the followings is not the morpheme or suffixation indicated as illness?

- A. gastrosia
- B. gastrosis
- C. gastritis

D. gastronomy

29. Which transitional word of the below is to interpret as the meaning of contrast?

A. correspondingly

B. whereas

C. thereupon

D. accordingly

30. Which of the followings is not the usage of lexical metaphor in scientific literature?

A. output width

B. rail bed

C. snail wheel

D. sunflower disk

31. Which type of title does this title “Application of sliding mode in the construction of reinforced concrete” belong to?

A. interrogative

B. descriptive

C. declarative

D. compound

32. When you read phrases in the introduction section of a research article, such as “little is, however, known about participants views of”, you will know that the following contents might possibly be about:

A. the main theme of the paper

B. what other researchers have already done

C. what the researcher has finished

D. preparing for the present research problem by pointing out the research gap

33. The following contents are the major contents in the research method section, except for:

A. the procedure of the test or experiment

B. materials used in the study

C. the analytical method of data

D. the data analysis

34. Based on purposes, research methods can be classified into the following categories except for:

A. developmental research

B. applied research

C. basic research

D. statistical research

35. Ethical issue will be involved if the research subjects are except for:

A. human tissues

B. fetuses

C. buildings

D. humans

36. The result section of a research article usually presents the research finding in form of non-verbal language which is:

A. explanations

B. tables and figures

C. copies

D. drawings

37. Which move is not included in the discussion section of a research article?

A. answering the questions proposed in the study

B. analyzing and discuss the results

C. interpreting the results of research

D. discussing the rationale of doing the research

38. The major difference between fact description and opinion description is that an opinion is described by the following means except for:

A. modal verbs

B. modal adjectives

C. numbers

D. tentative verbs

39. The functions of references are the follows except for:

A. to help readers evaluate the level and quality of the paper

B. to help readers learn about the time range of the cited texts

C. to help readers learn about the authors cited

D. to help readers learn about the importance of the journal

40. In the acknowledgement section of a research paper, what was thanked usually include except for:

A. leaders of your school

B. most important teachers

C. financial aids

D. financial support from a foundation

41. The differences between a research article and a review article mainly falls on:

A. the difference between primary research and secondary research

B. the number of researches covered in the article

C. the conclusion section

D. the literature section

42. Based on timeline, review articles are classified into retrospective review and prospective review, while the retrospective review focuses on the historical development of the research area, the prospective review focuses on:

- A. the results achieved in a certain research area
- B. new and future development in a certain research area
- C. the debates existing in a certain research area
- D. facts about a research

43. When we read a contentious review article, what is the focus of the review?

- A. different studies conducted on one technology
- B. different ideas and opinions towards one conduct
- C. different stages of development of a technology
- D. different properties of one technology

44. The differences between a macro-review and a micro-review are drawn based on:

- A. number of articles reviewed
- B. authors of the reviewed articles
- C. the scope of the reviewed contents
- D. the timeline of the reviewed contents

45. The section that follows the introduction section in a research article is the method section, but what follows the introduction section in a review article is often the:

- A. references
- B. discussion section
- C. conclusion section
- D. main body section

46. In the abstract of a review article, there are usually five moves, after the move of indicating the reviewed focus, what might follow closely is the move that describes:

- A. the conclusion
- B. the reviewed details
- C. the background
- D. the significance of the review

47. When the author wants to introduce some relevant studies that others have done, he or she would usually use the following phrases except for:

- A. some research works published in the last years on this subject indicate...
- B. the focus of this review paper is on...
- C. contributions have been made by
- D. considerable researches were conducted

48. The main body section of a review article usually does not have fixed moves, but rather indicate the reviewed details by use of:

- A. some key words
- B. some directions
- C. indicative words

D. sub-sections with sub-titles

49. When you read a review article, it is much easier to follow the subtitles of each section for reviewed contents, but also you can follow:

A. each paragraph

B. the author's writing style

C. some lexical signals

D. the concluded contents

50. "To overcome these barriers, collaboration between research institutions, industry, government, and other stakeholders is essential." In this sentence, the underlined phrases indicate:

A. the reviewed problem

B. the review's significance

C. the reviewed focus

D. what is needed to be done in the future

二. 英译汉

1. He eats an apple every day.

他每天吃一个苹果。

2. The bulbs are planted in groups of three or five.

这些鳞茎植物是三五株一组种植的。

3. We're looking for people of all ages who have performed outstanding acts of bravery, kindness, or courage. 我们正在寻找各个年龄的、曾有过无畏、善良或英勇之举的杰出人士。

4. Loose clothing gives you greater freedom of movement.

衣服宽松可以让你活动自如。

5. To address this question, we take a classic data mining approach.

为了解决这个问题，我们采用经典的数据挖掘方法。

6. The return on investment will take much longer.

收回投资要假以时日。

7. He described it (comet) as like "a faint exclamation point chalked on the sky".

他将那颗彗星描绘成“用粉笔画在天空上的一个淡淡的感叹号”。

8. The lead up to the Games has not been a safe and easy ride for Kathy.

对于凯西来说，通往奥运会的道路并不平坦。

9. Feed the dogs because they haven't eaten.

喂喂这几条狗，（因为）它们还没吃呢。

10. Lasting enthusiasm, in astronomy as in anything else, comes from purposeful activity.

和任何其他学科一样，要想对天文学保持长期的兴趣，活动就必须带有目的性。

11. Any network element that acts as an intermediary system for data transfer, such as a router or a firewall, has two main responsibilities.

任何充当数据传输中介系统的网络部件，比如路由器和防火墙，都具有两项重要功能。

12. You must understand the elements of mathematics before we can proceed further.

你必须先弄懂数学基础知识，我们才能进一步学习。

13.He thought that directly internal confidence in the regime declined,her financial structure would be in danger.

他认为，一旦国内对政府的信心下降，它的财政体制就会出现危机。

14.She's very active, considering her age.

从她的年龄看,她算是很积极的了。

15.We have now accumulated a considerable body of knowledge about electronics.

目前，我们在电子学方面已经积累了大量知识。

16.She had to take on two jobs just to keep body and soul together.

她不得不做两份工作来勉强维持生活。

17.Imagination bodies forth the forms of things unknown.tr

想象力能使未知事物的形象呈现出来。

18.Power can be transmitted over a long distance.

电力可以输送到很远的地方。

19.A car needs a lot of power to go fast.

汽车高速行驶需要很大动力。

20.Human societies have the power to solve the problems confronting them.

人类社会有能力解决他们面临的问题。

21.The fourth power of three is eighty-one.

3 的 4 次(乘)方是 81。

22. Other scientists of the brain, noting that disease and physical damage can change personality and distort the mind, believe the brain to be nothing more than a fantastically complex computer.

其他研究大脑的科学家，因为注意到疾病和身体上的损伤会改变人的性格，扭曲人的思想，因此认为人脑只不过是一台非常复杂的电脑

23.Power can be transmitted over a great distance with practically negligible loss if it is carried by electric current.

用电流可把动力输送到很远的地方，而其损耗几乎可以不计。

24.Too often we believe what accounts for other's success is some special secret or a luck break.

But rarely is success so mysterious.

我们常常相信别人的成功是由于某种特殊的奥秘或者是由于某种机遇.但成功极少是如此神秘的。

25.There are three steps which must be taken before we graduate from the integrated circuit technology.

我们要完全掌握集成电路，还必须经过三个阶段。

26.Superconductivity technology is now in its infancy.

超导体技术正处于发展的初级阶段。

27.In order to survive, to feed, clothe, and shelter himself and his children,man has to learn how to use the things he finds in nature.

为了生存,为了自己和子孙后代的衣食住行,人类和大自然进行着斗争。

28. This nuclear power plant which is computer-controlled will serve the entire city.

这座由计算机控制的核电站将向全市供电。

29. The coming breeding season is also heralded vocally

即将到来的繁殖季节也用声音来预示。

30. ADSL furnishes telephone companies with access to next-generation multi-media communication, allowing them to compete with hybrid-fiber-coax (HFC) technology from cable television suppliers.

ADSL 技术使得电话公司也可以参与下一代的多媒体通信,使它们可以和有线电视提供商的 HFC(同轴光纤混合) 技术进行竞争。

31. Kendin has virtually no experience as a physical-layer provider, and

I'd question their ability to come in at this stage in a mature market and make a dent.

实际上,作为一个物理层芯片供应商, Kendin 没有任何经验。我很怀疑他们能否在这个时候进入这个成熟的市场并且站得住脚。

32. Certainly Broadcom is formidable, but we're going to be in their rearview mirror and they aren't going to be able to shake us

是的, Broadcom 是很可怕,但我们会紧紧跟上,他们不会吓倒我们的。

33. The area of distribution for networks hit new ground every day and the traffic over the Internet are escalating

网络每天都有新的发展, Internet 上的数据流量也与日俱增。

34. Do you think he has it in him?

你认为他干得了吗?

35. There are in fact three types of PCMCIA cards. As with the cards, PCMCIA slots also come in three sizes.

PCMCIA 卡共有三种。和卡一样, PCMCIA 插槽也有三个型号。

36. To meet customer demands for high-speed digital transmission through conventional telephone lines, Analog Devices and Partner Aware, Inc., have created the first chipset that conforms to the new Asymmetric Digital Subscriber Line (ADSL) standard (ANSI T 1.413 category 1)

为了满足用户使用传统电话线进行高速数字传输的需求, Analog Devices and Partner Aware 公司开发出了第一种符合 ADSL (非对称数字用户线)标准的芯片组。

37. The software-centric design of the X-router/firewall products puts very few requirements on the hardware architecture

X 的路由器/防火墙是以软件为中心的(基于软件的),对硬件结构几乎没有什么要求。

38. The SiS730S also supports as many as 32 languages, the company said.

该公司声称, sis730S 还可支持多达 32 种语言。

39. The chipset can move data downstream (network to home) as fast as 8MBPS and can achieve interactive rates as high as 500 KBPS. The 8MBPS, more than 200 times the speed of the fastest

conventional modem, can support several digital video channels, while the interactive rate can handle two-way teleconferencing, high-speed Internet “surfing”, and LAN access.

该芯片组可使下行（由网络至家庭）数据速率高达 8MBPS.交互速率高达 500KBPS。8MBPS 这个速度相当于最快的普通调制解调器速度的 200 多倍，可以支持好几个数字视频通道。而 500KBPS 这个交互速率则可以支持双向电话会议，高速网上冲浪，以及局域网接入。

40. Even if cost were not an issue, completely replacing the existing infrastructure would take no less than 25 years.

即使不用考虑费用的问题，要完全替换现有的基础设施也至少要用 25 年。

41. The powerful software technology results in high performance using commercial off-the-shelf components only. X's network products have the best price-performance relationship in the industry, while other vendors need to build customized hardware to achieve the same performance.

利用强大的软件技术，我们仅使用流行的商用部件就可获得高性能 X 的网络产品具有业界最高性价比，而其他供应商需要生产定制硬件才可以获得同样的性能。

42. Since the routing algorithm was introduced in 1997, it has not had an equal on the market. And in the world of the Internet, three years' lead is a lot.

自 1997 年路由选择算法推出以来，市场上至今还没有产品能和它匹敌在因特网领域里能够领先三年，实属不易。

43. The WAN group is considered to be outside the focus applications.

他们认为 WAN 工作组和公司的主流应用无关。

44. We compete head-to-head with companies like Broadcom, ...

现在，我们和 Broadcom 等公司处于直接竞争中..

45. The visit gives me the opportunity which I have long sought, to see for myself the achievements of the Chinese people.

这次访问使我有机会亲眼看一看中国人民取得的成就，这是我向往已久的

46. I am heartened by the assurance which your Government has repeatedly given that the arrangements for Hong Kong contained in the Agreement are not measures of expediency.

贵国政府一再表示，协议中有关香港的安排不是权宜之计，这种保证使我感到鼓舞。

47. A CCD camera on a small telescope, combined with cheap, powerful image-analysis shareware, can measure magnitudes of much fainter stars much more accurately than can be done by eye. (from Alan MacRobert: The Lure of variable Stars)

给一架小型望远镜上的 CCD 摄像机装上价廉且功能强大的图像分析共享软件，就可以测量星等更弱的星星，并且比肉眼更加准确。

48. Clinton is expected to give his testimony by videotape.

克林顿将会以录像的形式提供证词。

49. The scientific research plan has already been drawn up.

科研计划已经拟出来了

50. The girl was criticized yesterday.

这个女孩昨天挨了一顿批评。

51. I worked very hard on this book

这本书我花了很多心血。

52. He isn't interested in things like watching TV, listening to songs, or dancing.

看电视、唱歌、跳舞这类活动他都不感兴趣。

53. The audience are requested to keep silent.

请观众保持肃静。

54. She was offered a job in a middle school.

人家给她一份中学里的工作。

55. She was seen to go out of the room.

有人看见她走出了那个房间。

56. You're wanted on the phone.

你的电话。

57. This rubbish is being disposed of.

(有人)正在处理这些垃圾。

58. John actually loved Mary and was loved in return.

约翰真的爱玛丽，而玛丽也爱约翰。

59. He appeared on the stage and was warmly applauded by the audience.

他出现在台上，观众热烈鼓掌欢迎。

60. Language is shaped by, and shapes, human thought.

人的思想形成语言，而语言又影响了人的思想。

61. We believe that it is right and necessary that people with different political and social systems should live side by side—not just in a passive way but as active friends

我们认为生活在不同政治社会制度下的各国人民应该共处，不仅仅是消极共处，而是要积极地友好相处，这是正确而必要的。

62. Sometimes the communications would be seriously disturbed by solar spots.

63. The source program is written by the programmer.

64. Some type of data conversion equipment is required to change the digital machine signals to a form suitable for transmission over these facilities.

65. Typically, both the modulator and demodulator section of the converter are combined into a two-way data transmitter receiver commonly called a data modem or data set.

一般而言，数据转换部分的调制和解调部分组合成收发两路信号，我们通常称之为数据调制解调器或数据传输机。

66. Astronomy is often called the one remaining science where amateur's can still contribute to the front-line professional research. When someone asks how, the first example always cited is variable stars. 我们常说，现在业余爱好者能进行前沿专业研究的学科只剩下天文学了，当问及那些业余爱好者如何进行研究时，所举的第一个例子就是变星。

67. The work has been done by him.

工作已由他完成了

68. The cup has been broken into pieces

杯子给打得粉碎。

69. This matter must be dealt with

这个问题必须予以处理。

70. What language is spoken there?

那里讲什么语言?

71. This task must be fulfilled in time.

这个任务必须按时完成

72. Children should be taught to speak the truth.

应该教育儿童讲老实话

73. Wrongs must be righted when they are discovered

发现了错误，一定要改正。

74. Sometimes the communications would be seriously disturbed by solar spots.

通信有时受到太阳黑子的严重干扰。

75. The source program is written by the programmer.

源程序由程序员编写。

76. Some type of data conversion equipment is required to change the digital machine signals to a form suitable for transmission over these facilities.

为了把数字化机器信号变换为适合在这些设备中传输的信号形式，需要使用某种类型的数据变换设备。

77. I don't think he will arrive this side of two o'clock.

我想他不会在两点之前到达。
